

LIVE-FIRE TRAINING

Learn By Doing. Service with Confidence.

Hands-on technical training designed to help contractors, technicians, and distributors better understand, troubleshoot, and service Modine heating equipment.

HANDS-ON LEARNING

LIVE-FIRE OPERATION

TEAR-DOWN & REBUILD

THE TRAINING EXPERIENCE

PHASE
01

UNDERSTAND THE COMPONENTS

Learn the purpose and function of key components that allow Modine heating equipment to operate safely and efficiently.

PHASE
02

DISASSEMBLE & REBUILD

Working in small groups, participants completely take down and rebuild a Hot Dawg (HD30) unit heater while receiving one-on-one guidance from Modine trainers.

PHASE
03

LIVE-FIRE OPERATION & TROUBLESHOOTING

Observe equipment in real time, follow the sequence of operation, make component adjustments, and diagnose simulated fault conditions.

WHAT PARTICIPANTS GAIN

- ✓ Improved troubleshooting skills
- ✓ Better understanding of sequence of operation
- ✓ Faster diagnosis of field issues
- ✓ Greater confidence servicing equipment
- ✓ Practical product knowledge that can be applied immediately
